**RESOURCE RECOVERY**

**EST. 1989**

Revolution is 100% BC family owned and operated, providing over 25 years of service to local communities.

We believe that every waste stream is comprised of valuable resources which we have proven can be cost effectively recovered within our innovative systems and visionary facilities.

OUR STORY

Our business philosophy is a simple one: everything we do must benefit the environment, our customers, employees, suppliers and neighbors. That is why we invest our own capital, own our own facilities and manage our own operations.

OUR VISION

Vancouver

Surrey

Lytton

Our revolutionary Resource Recovery Parks accept recyclable resources from our own customers as well as other service providers, as we are uniquely positioned to recover much of what was previously considered 'garbage'. This Full Circle approach and scope of facilities allow us to save our customers time and money.

OUR FACILITIES

We believe in a world with nothing wasted. Our superior technology and facilities even allow for the de-packaging of food and beverage products. This includes expired, recalled and excess packaged or bulk foods of any kind. We accept all quantities of canned, boxed, plastic wrapped, or loose food.

DEDICATED RECOVERY

Our full range of state-of-the-art equipment allows us to customize a collection system that works for any customer and any budget.

EQUIPMENT

Our expert consultants stay ahead of changing legislation so you don't have to. Our dedicated training program helps our customers achieve industry-leading diversion and recovery rates. We are committed to customer success because we are in this together.

TOGETHER WE CAN

Our expert consultants can help you design a system to separate, collect and recycle your entire waste stream.

- Consultation
- Hauling
- Organics
- Equipment
- Recycling
- De-packaging

EXPERTISE

**We turn this...**

**Into this...**

**To create this!**

**FULL CIRCLE ORGANICS**

Revolution Ranch sits on 700 acres in the Southern Interior of BC, a short ride up the Fraser Valley. It is home to the first fully sustainable certified organic soil farm in North America.

FOOD TO FARM

We believe in simple, cost effective resource recovery that is easily customizable to meet each customer's needs.

Every customer can achieve maximum diversion and resource recovery with the right training and support.

OUR PARTNERS

“My three McDonald’s Restaurants have recently embraced full resource recovery in partnership with Revolution, resulting in over 60% of the waste stream being diverted to date. The success of our program- which diverts food, paper, metal and plastics- is based on the mutual commitment of both businesses to re-consider waste material as valuable resources. Furthermore, we have been able to reduce our costs while achieving a previously unattainable level of sustainability.”

**- McDonald’s, Lower Mainland**

TESTIMONIAL

“We have reduced the amount of waste going to the landfill from our store by at least 60% and hope to achieve an even greater amount in the future. To be able to save at least 50% [in costs] and become a greener, more environmental business is definitely an added bonus.”

**- Tim Hortons, New Westminster**

TESTIMONIAL

# revolution

There's no time to waste.
